Bagging Scale

CHRONOS • E-55 with Vibratory Feeder

Bagging Scale

UP TO 22 BPM*

*UP TO 22 BPM (duplex configuration)
UP TO 12 BPM (simplex configuration)

Design quality

Perfectly adapted for a wide variety of hard-to-handle products and continuous operations under rough industrial working conditions.

Reliability

Pneumatically operated catch gate provides an accurate and consistent product cut-off.

Versatility

Its electro-magnetic vibrator with analogical frequency controls enables optimum fast and slow material feed settings.

**Among the most durable scale
of the industry.**

Bulk materials

Coarse
Aggregate

Typical Equipment Dimensions

Top view

Side view

Accuracy

Up to +/- 205 oz (70 g) @ 2 sigma

Weighment range

5 to 110 lb (2.5 to 50 kg)

Weigh hopper size

2.3 ft³, 3.0ft³ and 3.7 ft³ (65, 85 and 105 L)

Operating pressure

60-90 PSI

Electrical Requirements

460 VAC, 3 phases, 60Hz

Features

Very few moving parts for trouble-free operation

Sturdy design for tough environments

Product stream depth regulator above the vibrator tray inlet

Catch gate to ensure consistent cut-off

Frequency controls to provide optimum bulk and dribble feed rates

Options

Duplex configuration

Automatic calibration check

Wear liners in the weigh hopper

Data collector for PC

Feed hopper and support structure

Many more

Lifetime

Client Solutions

Premier Tech Client Solutions take a personalized approach to **lifecycle management**, creating enhanced solutions customized to your specific needs that develop your own capabilities and operational habits, and help you achieve and maintain productivity.

The Client Solutions' passionate team acts as a **partner** by maintaining constant collaboration and putting your interests at the heart of daily decisions throughout your equipment's lifecycle.

Our programs are designed to help you reach your highest **Overall Equipment Effectiveness (OEE)** and maximize your **Return on Investment (ROI)** by providing you with the most valuable lifecycle services in the industry focusing on critical areas such as **24/7 technical support, spare parts, field service, training, system assessments and optimization.**
