Side-Load Case Packer

Side-Load Case Packer

In partnership with

UP TO 60 PRODUCTS PER MINUTE PER ROBOT*

*10 cases per minute. Depends on product and container characteristics.

Performance

The side-load case packer erects corrugated cardboard cases before loading in products from the side. Versatile and adaptable, it can meet diverse production needs.

Ergonomic and Safe Design

It includes a moveable HMI for operator convenience, a fixed cardboard magazine height, and large access doors for easy maintenance.

Ease of Use

Quick and easy manual, assisted, or automatic case format changeovers. The intuitive 12" HMI with video tutorials provides guidance for operators.

Applications

Boxes

Trays

Bottles

Pouches

Cans

Container Types

RSC cases
opened on the side

This packing method is perfect for irregularly shaped or delicate items. Products are gently pushed into the cases laterally, minimizing the risk of damage or shocks while maximizing the use of space.

Typical Equipment Dimensions

Top view

Specifications

Cardboard magazine height

35.4" (900 mm)

Electrical requirements

460 V – 3 Ph – 60 Hz

Operating temperature

39 °F to 95 °F (4 °C to 35 °C)

Features

Positive case shaping and hot-melt glue or adhesive tape closure

Robotic batch packing or direct picking of single products without upstream grouping

Product packing performed by various robot types according to the product to handle

Moveable HMI for operator convenience

Ergonomic fixed cardboard magazine height

Large access doors for easy maintenance

Hygienic machine with reduced retention areas

Frame made of robust tubular steel (available in stainless or painted finishes)

Quick and easy manual, assisted, or automatic case format changeovers

Intuitive 12" HMI with video tutorials for guidance

Options

Case labeling

Rejected box management (incomplete or mislabeled cases)

Vision integration for serialization/aggregation

Lifetime

Client Solutions

Premier Tech Client Solutions take a personalized approach to lifecycle management, creating enhanced solutions customized to your specific needs that develop your own capabilities and operational habits, and help you achieve and maintain productivity.

The Client Solutions passionate team acts as a **partner** by maintaining constant collaboration and putting your interests at the heart of daily decisions throughout your equipment's lifecycle.

Our programs are designed to help you reach your highest **Overall Equipment Effectiveness (OEE)** and maximize your **Return on Investment (ROI)** by providing you with the most valuable lifecycle services in the industry focusing on critical areas such as **24/7 technical support, spare parts, field service, training, system assessments and optimization.**
